 [Hitarth Soni](#) |  [hitarth0710](#) |

Surat, Gujarat, India

OBJECTIVE

A highly motivated computer science graduate with a strong technical foundation and a deep practical understanding of jewelry manufacturing operations. Eager to leverage hands-on software development experience and industry-specific knowledge to provide exceptional technical support, troubleshoot complex system issues, and assist clients in optimizing their business management software.

EDUCATION

- **G. H. Patel College of Engineering & Technology** Sept'22 - May'26
Btech in Computer Science & Design
◦ CGPA : 9.42 Anand, India
- **Citizen's School** May '22
HSC
◦ Percentage: 73.38 Surat, India
- **L. P. Savani Vidhyabhavan School** June '20
SSC
◦ Percentage: 84.83 Surat, India

INTERNSHIPS & PROFESSIONAL EXPERIENCE

- **Software Engineering Intern | SYNC Web Solutions** Jan '26 - March '26
Project: CRM OS (React, Node.js, PostgreSQL) 
◦ Developed a full-stack Customer Relationship Management (CRM) system featuring comprehensive HR and contact management modules.
◦ Built robust backend architecture utilizing PostgreSQL to streamline business operations and manage client data efficiently.
- **Software Engineering Intern | Zidio Development** March '25 - May '25
Project: Stock Market Analysis (Python) 
◦ Engineered a data-driven stock analysis application utilizing Python, focusing on complex data processing.
◦ Delivered clear, user-facing analytical dashboards for enhanced data visualization and market insights.

PROJECTS

- **DeepFake Video and Image Detection** Jan-Feb '25
Tools: React.js, Tailwind CSS, JavaScript, Django 
◦ Designed and developed a sleek, user-friendly interface for the DeepFake detection system, ensuring a smooth and intuitive experience for users.
◦ Integrated real-time video and image upload functionality using React.js, allowing users to effortlessly analyze media for DeepFake manipulation.
◦ Built dynamic and visually appealing result dashboards, providing clear insights into detection accuracy and AI-generated analysis.
◦ Applied modern UI/UX best practices, enhancing accessibility, responsiveness, and overall engagement across devices.
- **Melody Generator** Jan - March '24
Tools: Python, Flask, CSS, JavaScript, HTML 
◦ Designed and developed an intuitive, user-friendly interface for the Melody Generator system, ensuring a seamless experience for users.
◦ Included datasets of various countries to generate different music, which consists of piano notations in Kern format.
◦ Built dynamic and visually appealing result dashboards, providing clear insights into the generated melodies and their variations that can be seen and heard on the software application named MuseScore.
◦ Developed for creating royalty free music and for musician to dive deep into creating their own melody using these project.

SKILLS

- **Database Systems:** PostgreSQL, MySQL, Supabase, MongoDB
- **Web Technologies:** React, Node.js, HTML, CSS, Django, Flask, Streamlit
- **Programming Languages:** Python, Java, C Language, C++, JavaScript, SQL, DART
- **Data Science & Machine Learning:** NumPy, Pandas, Scikit-learn, TensorFlow, PyTorch, Matplotlib
- **DevOps & Version Control:** Git, Docker, GitHub Actions
- **Research Skills:** Data Analysis, Literature Review, Experiment Design, Technical Writing, Critical Thinking, Hypothesis Testing

PROFESSIONAL MEMBERSHIPS

- | | |
|--|----------------------------|
| • IEEE Signal Processing Society, Vice Chariperson , Membership ID: 100067290 | <i>Aug'2023 - Nov'2024</i> |
| • Computer Society of India ,Membership ID: 01609155 | <i>Jan'24 - Feb'25</i> |

CERTIFICATIONS

- | | |
|--|-------------------|
| • Certification in Core Java Specialization | <i>Apr - 2024</i> |
| • Certification in Introduction To Internet Of Things (Elite, Top 2% - NPTEL) | <i>Apr - 2025</i> |
| • Certification in Computer Vision & Image Processing | <i>Oct - 2024</i> |
| • Certification in IEEE Xtreme 18.0 | <i>Oct - 2024</i> |
